9. UNITED STATES TAX CONSIDERATIONS

Section 871(m) Withholding Tax

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of

the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Certificates for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Certificates.

SECTION D – RISKS		
D.2	Key risks that are specific to the Issuer	<p>The payment of any amount due on the Securities is subject to our credit risk. The Securities are our unsecured obligations. The Securities are not bank deposits and are not insured or guaranteed by the UK Financial Services Compensation Scheme or any other government or governmental or private agency, or deposit protection scheme in any jurisdiction. The value of and return on your securities will be subject to our credit risk and to changes in the market's view of our creditworthiness.</p> <p>References in Element B.12 above to the "prospects" and "financial or trading position" of the Issuer, are specifically to the Issuer's ability to meet its full payment obligations under the Securities in a timely manner. Material information about the Issuer's financial condition and prospects is included in GSI's annual and interim reports. You should be aware, however, that each of the key risks highlighted below could have a material adverse effect on the Issuer's businesses, operations, financial and trading position and prospects, which, in turn, could have a material adverse effect on the return investors receive on the Securities.</p> <p>The Issuer is subject to a number of key risks:</p> <ul style="list-style-type: none"> • GSI's businesses have been and may continue to be adversely affected by conditions in the global financial markets and economic conditions generally. • GSI's businesses and those of its clients are subject to extensive and pervasive regulation around the world. • GSI's businesses have been and may be adversely affected by declining asset values. This is particularly true for those businesses in which it has net "long" positions, receives fees based on the value of assets managed, or receives or posts collateral. • GSI's businesses have been and may be adversely affected by disruptions in the credit markets, including reduced access to credit and higher costs of obtaining credit. • GSI's investment banking, client execution and investment management businesses have been adversely affected and may continue to be adversely affected by market uncertainty or lack of confidence among investors and CEOs due to general declines in economic activity and other unfavourable economic, geopolitical or market conditions. • GSI's investment management business may be affected by the poor investment performance of its investment products. • GSI may incur losses as a result of ineffective risk management processes and strategies. • GSI's liquidity, profitability and businesses may be adversely affected by an inability to access the debt capital markets or to sell assets or by a reduction in its credit ratings or by an increase in its credit spreads. • A failure to appropriately identify and address potential conflicts of interest could adversely affect GSI's businesses. • A failure in GSI's operational systems or infrastructure, or those of third parties, as well as human error, could impair GSI's liquidity, disrupt GSI's businesses, result in the disclosure of confidential information, damage GSI's reputation and cause losses.

		<ul style="list-style-type: none"> • A failure to protect GSI's computer systems, networks and information, and GSI's clients' information, against cyber attacks and similar threats could impair GSI's ability to conduct GSI's businesses, result in the disclosure, theft or destruction of confidential information, damage GSI's reputation and cause losses. • GSI's businesses, profitability and liquidity may be adversely affected by deterioration in the credit quality of, or defaults by, third parties who owe GSI money, securities or other assets or whose securities or obligations GSI holds. • Concentration of risk increases the potential for significant losses in GSI's market-making, underwriting, investing and lending activities. • The financial services industry is both highly competitive and interrelated. • GSI faces enhanced risks as new business initiatives lead it to transact with a broader array of clients and counterparties and exposes it to new asset classes and new markets. • Derivative transactions and delayed settlements may expose GSI to unexpected risk and potential losses. • GSI's businesses may be adversely affected if GSI is unable to hire and retain qualified employees. • GSI may be adversely affected by increased governmental and regulatory scrutiny or negative publicity. • Substantial legal liability or significant regulatory action against GSI could have material adverse financial effects or cause significant reputational harm to GSI, which in turn could seriously harm GSI's business prospects. • The growth of electronic trading and the introduction of new trading technology may adversely affect GSI's business and may increase competition. • GSI's commodities activities, particularly its power generation interests and physical commodities activities, subject GSI to extensive regulation potential catastrophic events and environmental, reputational and other risks that may expose it to significant liabilities and costs. • In conducting its businesses around the world, GSI is subject to political, economic, legal, operational and other risks that are inherent in operating in many countries. • GSI may incur losses as a result of unforeseen or catastrophic events, including the emergence of a pandemic, terrorist attacks, extreme weather events or other natural disasters. • Favourable or simply less adverse developments or market conditions involving industries or markets in a business where GSI has a lower concentration of clients in such industry or market may result in GSI underperforming relative to a similar business of a competitor that has a higher concentration of clients in such industry or market. For example, GSI has a smaller corporate client base in its market-making businesses than many of its peers and therefore GSI's competitors may benefit more from increased activity by corporate clients. • Certain of GSI's businesses and its funding may be adversely affected by changes in the reference rates, currencies, indexes, baskets, exchange-traded funds or other financial metrics to which the products offered by GSI or funding raised by GSI are linked.

Any such adjustment may have a negative effect on the value of and return on your Securities; the amount you receive following an early redemption may be less than your initial investment and you could lose some or all of your investment. • The Issuer of your Securities may be substituted with another company. • We may amend the terms and conditions of your Securities in certain circumstances without your consent.
