

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Product name	BB AIO Nordiske Indekser 5202 NOK
Product identifier	ISIN: NO0013329284
PRIIP manufacturer	Barclays Bank PLC ( <a href="https://derivatives.cib.barclays/">https://derivatives.cib.barclays/</a> ), part of The Barclays Group. The PRIIP manufacturer is also the product issuer. Call +44 (0) 20 7116 9000 for more information.
Competent authority of the PRIIP manufacturer	Barclays Bank PLC is authorised by the U.K. Prudential Regulation Authority and regulated by the U.K. Financial Conduct Authority and U.K. Prudential Regulation Authority. It is not established in the European Union (EU) or supervised by an EU competent authority.
Date and time of production	3 September 2024 12:57 Oslo local time

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type	English law governed notes
Term	The product has a fixed term and will be due on 24 April 2030.
Objectives	The product is designed to provide a return in the form of a cash payment on the <b>maturity date</b> . The amount of this payment will depend on the weighted performance of the <b>underlyings</b> . On termination of the product on the <b>maturity date</b> you will receive a cash payment equal to (i) NOK 10,000 plus (ii) an amount directly linked to the <b>final basket performance</b> . This amount will equal (i) NOK 13,000 (i.e., 130.00% <sup>[1]</sup> of the <b>product notional amount</b> ) multiplied by (ii) (x) the <b>final basket performance</b> minus (y) 100.00%. <u>However, if this cash payment is less than NOK 10,000, you will receive NOK 10,000 (the minimum payment).</u>

(Terms that appear in **bold** in this section are described in more detail in the table(s) below.)

The basket performance for a given date is calculated by adding together the weighted performances of the **underlyings**. The weighted performance of an **underlying** is calculated by multiplying the **weighting** of that **underlying** by its performance. The performance of an **underlying** is calculated as its **reference level** on the relevant date divided by its **initial reference level**.

Underlying	ISIN	Underlying currency	Weighting	Reference source
OMX STOCKHOLM 30 INDEX (Price return index) (OMX; Bloomberg: OMX Index; RIC: .OMXS30)	SE0000337842	SEK	25.00%	Nasdaq OMX
OBX Price Index (OBXP; Bloomberg: OBXP Index)	NO0007035376	NOK	25.00%	Euronext
OMX Helsinki 25 Index (Price return index) (HEX25; Bloomberg: HEX25 Index; RIC: .OMXH25)	FI0008900212	EUR	25.00%	Nasdaq OMX
OMX Copenhagen 25 Index (Price return index) (OMXC25; Bloomberg: OMXC25 Index)	DK0060775369	DKK	25.00%	Nasdaq OMX

<sup>[1]</sup> This indicative value is used for display purposes and calculations in this document only and the actual value will be subject to a minimum of 100.00% of the **product notional amount**. The actual value will be determined by us on the earliest initial valuation date, taking into account the market conditions on such date.

Under the product terms, certain dates specified below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the issuer may terminate the product early. These events are specified in the product terms and principally relate to the **underlyings**, the product and the issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

Final basket performance	The average performance of the basket performances observed on the <b>final valuation dates</b>	Issue date	24 October 2024
Underlying market	Equity	Initial reference level	The average of the <b>reference levels</b> observed on the <b>initial valuation dates</b>
Product notional amount	NOK 10,000	Reference level	The closing level of an <b>underlying</b> as per the relevant <b>reference source</b>
Issue price	105.00% of the <b>product notional amount</b>	Initial valuation dates	4 October 2024, 4 November 2024, 4 December 2024 and 6 January 2025
Product currency	Norwegian Krone (NOK)	Final valuation dates	4 April 2029, 4 May 2029, 4 June 2029, 4 July 2029, 6 August 2029, 4 September 2029, 4 October 2029, 5 November 2029, 4 December 2029, 4 January 2030, 4 February 2030, 4 March 2030 and 4 April 2030

**Intended retail investor** The product is intended to be offered to retail investors who fulfil all of the criteria below:

1. they have the ability to make an informed investment decision through sufficient knowledge and understanding of the product and its specific risks and rewards, either independently or through professional advice, and they may have experience of investing in and/or holding a number of similar products providing a similar market exposure;
2. they seek capital growth, expect the movement in the underlying to perform in a way that generates a positive return. They have a long investment horizon;
3. they are only able to bear a partial loss of their initial investment, consistent with the redemption profile of the product at maturity (market risk);
4. they accept the risk that the issuer could fail to pay or perform its obligations under the product irrespective of the redemption profile of the product (credit risk);
5. they are willing to accept a level of risk of 2 out of 7 to achieve potential returns, which reflects a low risk (as shown in the summary risk indicator below which takes into account both market risk and credit risk).

## 2. What are the risks and what could I get in return?

**Risk indicator**

The risk indicator assumes you keep the product until 24 April 2030. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance of the **underlyings** at a low level and the potential for us to be unable to pay you any amounts due as very unlikely.

**To the extent the currency of the country in which you purchase this product differs from the product currency, please be aware of currency risk. You will receive payments in a different currency so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Inflation erodes the purchasing value of cash over time and this may result in the decline in real terms of any capital reimbursed.

You are entitled to receive back at least 100.00% of your capital. Any amount over this, and any additional return, depends on future market performance and is uncertain. However, this protection against future market performance will not apply if you cash in before maturity or in case of immediate termination by the issuer.

If we are not able to pay you what is owed, you could lose your entire investment.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

**Performance scenarios** What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

<b>Recommended holding period:</b>		<b>5 years and 6 months</b>	
<b>Example investment:</b>		NOK 100,000	
<b>Scenarios</b>		<i>If you exit after 1 year</i>	<i>If you exit after 5 years and 6 months (Recommended holding period)</i>
<b>Minimum</b>	NOK 95,238. The return is only guaranteed if you hold the product to maturity. You could lose some or all of your investment.		
<b>Stress</b>	<b>What you might get back after costs</b>	NOK 76,822	NOK 95,238
	Average return each year	-23.18%	-0.88%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	NOK 81,576	NOK 95,238
	Average return each year	-18.42%	-0.88%
<b>Moderate</b>	<b>What you might get back after costs</b>	NOK 87,126	NOK 95,238
	Average return each year	-12.87%	-0.88%
<b>Favourable</b>	<b>What you might get back after costs</b>	NOK 100,113	NOK 143,741
	Average return each year	0.11%	6.82%

The favourable, moderate, unfavourable and stress scenarios represent possible outcomes that have been calculated based on simulations using the past performance of the **underlyings** over a period of up to 5 years. The stress scenario shows what you might get back in extreme market circumstances. This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you do not have a guarantee and you may have to pay extra costs.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## 3. What happens if the manufacturer is unable to pay out?

You are exposed to the risk that the issuer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not covered by any deposit protection scheme.

#### 4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

##### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- NOK 100,000 is invested

	<i>If you exit after 1 year</i>	<i>If you exit after 5 years and 6 months</i>
<b>Total costs</b>	NOK 8,571	NOK 8,095
<b>Annual cost impact*</b>	9.33%	1.53% each year

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.65% before costs and -0.88% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

##### Composition of costs

	<b>One-off costs upon entry or exit</b>	<b>If you exit after 1 year</b>
<b>Entry costs</b>	8.10% of the amount you pay when entering this investment. These costs are already included in the price you pay.	NOK 8,095
<b>Exit costs</b>	0.48% of your investment before it is paid out to you. These costs are already included in the price you receive and are only incurred if you exit before maturity. If you hold the product until maturity, no exit costs will be incurred.	NOK 476

#### 5. How long should I hold it and can I take money out early?

##### Recommended holding period: 5 years and 6 months

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 24 April 2030 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is exchange traded) or (2) off-exchange, where an offer for such product exists. Save as otherwise disclosed in exit costs (see section "4. What are the costs?" above), no fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

<b>Exchange listing</b>	Nasdaq Stockholm AB	<b>Last exchange trading day</b>	4 April 2030
<b>Smallest tradable unit</b>	NOK 10,000	<b>Price quotation</b>	Percentage

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

#### 6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: 1 Churchill Place, London, E14 5HP, England, UK, by email to: [IBKIDComplaints@barclays.com](mailto:IBKIDComplaints@barclays.com) or at the following website: <https://derivatives.cib.barclays/>.

#### 7. Other relevant information

The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with your bank or advisor.

The product is not in any way sponsored, sold or promoted by any relevant stock market, relevant index, related exchange or index sponsor. Further information in respect of the index is available from the index administrator.

The offering of this product has not been registered under the U.S. Securities Act of 1933. This product may not be offered or sold, directly or indirectly, in the United States of America or to U.S. persons. The term "U.S. person" is defined in Regulation S under the U.S. Securities Act of 1933, as amended.

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are published on <https://derivatives.cib.barclays/>, all in accordance with relevant legal requirements. These documents are also available free of charge from Barclays Bank PLC, 1 Churchill Place, London, E14 5HP, England, UK.
